Academic credit validity and weighted average

When completing the online application, students will be required to indicate the number of academic credits attained and corresponding weighted average. These values are to be understood as follows:

Number of academic credits: students are required to specify the number of academic credits which have been earned by passing exams and which have been duly recorded since the beginning of their academic history (for the current level of studies), up until 10 August 2024. Exam marks not expressed in thirtieths are also valid. Any credits earned from exams not included in study plans, from individual ongoing modules or from exams taken and recorded prior to matriculation on the current level of studies are not valid.

Weighted average: students are required to calculate and specify the weighted average of the exams listed in the "NUMBER OF CREDITS ATTAINED" field; exams marks not expressed in thirtieths should not be considered. 30 with honours should be counted as 30.

To obtain the weighted average, each mark should be multiplied by the exam value (in credits); the total of the results should be divided by the number of academic credits considered as a whole.

For example:

Exam 1	Mark: 26/30	Value: 9 credits
Exam 2	Mark: 30/30	Value: 12 credits
Exam 3	Mark: 18/30	Value: 9 credits
Exam 4	Mark: approved (e.g. English language knowledge testing)	Value: 3 credits
Total no. credits attained		33 credits
Total no. credits to be considered for the weighted average		30 credits

Weighted average calculation:

26 x 9 =	234 +	
30 x 12 =	360 +	
18 x 9 =	162	
Total	756	Weighted average = 756 / 30 = 25.20

Bonus

If the student enrolled does not have the minimum number of credits mentioned he/she can use a bonus in addition to the credits actually achieved. The bonus can be used in the following way:

- **Five** credits, if employed for the first time to maintain the financial assistance attained for the first year or to attain assistance for the second year;
- **Twelve** credits, if employed for the first time to attain financial assistance for the third year.

The bonus credits may only be employed once and may not be combined. Any bonus credits not employed during the academic year of reference may be employed in subsequent years.

Any bonus credits matured and not employed during the three-year programme may be employed following enrolment on two-year programmes.

Students with disabilities

Personalised merit requirements are provided to students with disabilities equal or greater than 66% who submit a copy of disability certificate pursuant to article 3, paragraph 1 or 3, of Italian Law n. 104 of 5 February 1992 or a copy of civil disability certificate attesting the percentage of disability. Both the certificates must be issued by the relevant Italian Medical Committee.

2.3.2) Income-based requirements

The financial situation of the household of the student applying for a scholarship is determined using the Equivalent Economic Status Indicator (Indicatore della Situazione Economica Equivalente, referred to herein, as with other acronyms, using the Italian - ISEE), as envisaged by Article 8 of Presidential Decree 159/2013.

Income and asset ceilings

Students requesting right to university education financial assistance are required to comply with the income and asset ceilings:

An Equivalent Financial Situation Indicator (ISEE) not exceeding **€ 26.306,25**;

An asset Status Index (ISPE) not exceeding **€ 57.187,53**.

Both of the two above mentioned index ceilings are to be complied with; students will be deemed not to fulfil the income-related requirements if either of the two indexes exceeds the respective ceilings.

Independent students

Students shall be considered independent from the parents' family unit only if both of the following requirements are met:

- Residence, as proven by registry data, outside the housing unit of the family of origin for at least two years, in accommodation that is not owned or in usufruct by one of its members;
- Income from employment or similar work, declared for tax purposes for the at least the past two years, not less than € 9,000 annually. The work may not be performed under the employment of a family member.

If both the above conditions are not met, the student is part of the parents' family unit, and therefore the economic and asset condition of the family of origin will be considered when determining ISEE.

2.3.3) Assessment of status relating to income and assets of foreign students with their family resident abroad

As the Ministry of Labour and Social Policies has confirmed, the present ISEE computer system does not allow a calculation to be made of the financial position of the members of a household to which an Italian or foreign student living abroad belongs.

Consequently, for the 2024/25 **NABA DSU Office will determine the equivalent ISEE for foreign students with family residing abroad without income and assets in Italy in possession of the below mentioned documents. No other ISEE indices calculated by other institutions will be accepted.**

For the 2024/25 academic year, the reference year for ISEE declarations is the 2022 calendar year (Tax Certification and 2022 Tax Returns), whilst the position of assets (tangible and intangible) is as of 31st December 2022.

In order to determine the **ISEE** foreign students must be in possession of the related original documents:

- Document attesting to the make-up of the running household resident abroad and, in the case of divorced parents, the relative divorce order or certification – dated **2024**;
- The income for the **2022** calendar year of each member of the family (the document must clearly state that the income refers to the calendar year 2022). If one or more adult family member received no earnings in 2022, the applicant must still present a statement to that effect. In the case of married or never-married parents, the incomes of both must be presented, even if one or other does not appear in the document certifying the make-up of the household;
- Properties owned by the family on 31st December 2022 (the document must be issued by a public authority that can provide a national-level assessment), including the square meters of the properties, or else a certificate for each family member attesting non-ownership of any property;
 - For Properties in Bulgaria: Due to the fact that the documentation is issued by the Province Land Registry and not by the National one, for each person of the family nucleus aged over 18 documentation issued by IKAR concerning the history of movements at national level up to December 2022 must be submitted

additionally.

- An attestation of movable assets (balance of bank and/or deposit accounts, account balance of shares, dividends, shareholdings, capitalization policies any other type of financial investment) owned by the family on **31/12/2022**.

Documentation concerning family composition must be issued after **January 1st, 2024**; documentation concerning income, movable assets and properties must be issued after **January 1st, 2023**.

These documents must be:

- Issued by the competent authorities of the State in which the income was produced;
- Translated into Italian;
- Legalised by the Italian diplomatic representations abroad.

The documents' legalization happens in different ways, according to the origin countries (annex A).

Foreign students are nevertheless required to declare the presence of any income and assets held in Italy by their family.

2.4) SCHOLARSHIP TOTAL AMOUNTS

The value of the scholarships given out to those who qualified, differs on the basis of:

- Candidate's position in the ISEE income bracket (see table below);
- Geographical origin of the student.

ISEE Band	Income Bracket			
	from	€	to	€
1st	from	0,00	to	13.153,13
2nd	from	13.153,14	to	17.537,50
3rd	from	17.537,51	to	26.306,25

Classification of the students per geographical location follows the definitions below:

- **Resident students:** A student living in the Town where the course is being held or resident in a nearby town or in a town classified as urban area, for which the travelling time from their home to the course is less than 60 minutes.

- **Commuting Student:** a student who does not fall within the “on site” category for which the travelling time from their home to the course is between 60 and 90 minutes.

- **Non-resident students:** residents of a municipality situated far from the location of the course attended and for this reason lodgers against payment in accommodation in the vicinity of the course location, using public residential facilities or other private or public accommodation for a period of no less than 10 months within the a.y. 2024/25.

In the absence of this condition, students will be deemed to be commuting students.

"Against payment" means that there is:

- A lease agreement duly registered with the Agenzia delle Entrate (the Italian Revenue Agency), valid for the current year and paid using an F23 form, made in the name of the student or a member of the student's family nucleus;
- A receipt valid for tax reasons attesting payment of rent by students domiciled at collective structures located in the city in which the university programme is held.

The lease agreement or receipt valid for tax reasons shall be submitted to **the DSU office by the 15th of November 2024**. Failure to submit the said documentation by the aforementioned deadline will result in the student being deemed a commuting student.

With regard to financial assistance renewal applications, where the lease agreement or receipt valid for tax reasons has already been submitted and where there have been no changes to the previously certified situation, students will be required simply to self-certify the same and to provide proof that the lease agreement has been registered for the subsequent.

The amounts for the scholarships issued to beneficiary students vary according to the income bracket and geographical location as follows:

Geographical Location	1 st ISEE BAND	2 nd ISEE BAND	3 rd ISEE BAND
Resident students	€ 3.357,00	€ 2.927,00	€ 2.098,00
Commuting	€ 4.717,00	€ 4.102,00	€ 3.229,00

Both the certificates must be issued by the relevant Italian Medical Committee.

4) DRAWING UP OF CLASSIFICATION LISTS

The classification lists are drawn up in accordance with the following criteria.

a) Students enrolled on the first year of any programme

The classification list is drawn up on the basis of the Equivalent Financial Status Index of the family nucleus in relation to a **26.306,25** ceiling, attributing up to a maximum of 1,000 points using the following formula:

$$1 - \frac{\text{Student ISEE}}{26.306,25} \times 1.000$$

The classification list is drawn up with the attributed scores in descending order. Where a similar score is attributed to more than one student, the highest qualification, followed by the youngest in age shall have precedence.

b) Students enrolled post-first year on any programme

The classification list is drawn up in descending order with reference to the total score awarded in relation to the number of academic credits attained or the number of years successfully passed **by 10th August 2024**, as well as the score resulting from the weighted average of any exam marks. A total of 1,000 points can be attributed as follows: 600 in accordance with the number of academic credits attained or the number of years passed and 400 in accordance with the weighted average of any exam marks.

If the same merit-based score is attributed to more than one student, the student who has not used the bonus, followed by the student with the higher income score on the list shall have precedence. Where the score continues to be the same, the younger student shall have precedence.

If included in the classification list, students with disabilities, with a degree of invalidity of 66% or above, are entitled to receive the scholarship even where the total number of the scholarships has already been assigned.

Academic merit-based score calculations

Scores relating to the number of *academic credits attained* or to the number of *years*

successfully passed **by 10th August 2024** are calculated in accordance with the following:

$$(\textit{Student credits} - \textit{Minimum credits}) \quad \times \quad \frac{600}{(\textit{Maximum credits} - \textit{Minimum credits})}$$

The score relating to the weighted average of exam marks is calculated as follows:

$$(\textit{Student exam mark weighted average} - 18) \quad \times \quad \frac{400}{(38 - 18)}$$

ANNEX "A" – Legalisation of documents

A general list of countries including the letter of reference to the above groups is provided in Annex A to the Selection Process Notice. Any countries which are not present in the list belong to group D.

Document legalisation practices differ from country to country. Regulations can be simplified into 4 broad areas:

A - Countries in which documentation is exempt from being legalised.

B - Countries in which documentation is exempt from being stamped by the Italian Embassy consul/diplomat, but is required of to bear an Apostille stamp: in accordance with the Hague Convention of 1961, documents issued by local authorities in one of these countries, are exempt from being legalised by the Italian Embassy, but must bear an "Apostille" stamp as provided for in Article 6 of said Convention.

C - Students belonging to particularly poor countries: with regard to foreign students from countries that are particularly poor (as specified by Decree no. 156, dated 12/02/2021, of the Italian Ministry of Education, Universities and Scientific Research in cooperation with the Italian Ministry for Foreign Affairs and listed below), the financial status of any such students is assessed on the basis of certification by the Italian Representative in the country of origin, attesting that the student does not belong to a family known to have an elevated income and high social status. This certification may also be issued by the foreign enrolling university affiliated by agreements or conventions with Italian universities or by Italian organisations authorised to guarantee the financial coverage referred to in the current provisions on the matriculation of foreign students in Italian universities. In the latter case, the certifying organisation shall undertake to repay the scholarship on behalf of the student in the event of forfeiture of the same.

D - All other countries not included in groups A, B and C: documentation is required to be legalised by the Italian Embassy or Consulate in the country of origin. All students belonging to any countries which are not listed above are required to have the documents issued in their country of origin legalised by the Italian Embassy or Consulate.

Republic of Moldova and Sweden: separate legislation is in force with regard to these two countries, signatories of the London Convention of 1968. Documentation issued only and exclusively by diplomatic and consular authorities (in Italy) is exempt from the legalisation requirement.

Albania: from 01 July 2011, Albanian documentation which is to be submitted in Italy must no longer be previously legalised by Italian diplomatic-consular representatives in Albania, but shall bear the Apostille stamp of the Albanian Ministry of Foreign Affairs. Please refer to the websites of the Italian embassy in Tirana (<http://www.ambtirana.esteri.it>) and of the consulates of Shkodër (<http://www.consitalia-scutari.org>) and Valona (<http://www.consvalona.esteri.it>) for detailed information on the process to be followed.

Students who are unable to obtain the documents in their country of origin, as a result of proven reasons only, may contact the foreign consular authority in Italy. In such event, the documents shall be legalised by the competent local Prefecture, namely the Prefecture of the city in which the foreign Consulate issuing the document is situated. In such event, the declaration of the consul is to make explicit reference to the documents from the country of origin (self-certifications relating to financial status written by students or by other subjects presented to the Consul will therefore not be valid), which shall in any event be translated and a copy submitted to NABA's DSU Office.

In any event, the income declared by foreign students shall not be less than € 5,983.64 corresponding to the subsistence minimum which must be proven for the purposes of applying for a visa to enter Italy for study purposes (Interministerial Decree of 20/11/2001, published in the Official Journal no. 283 of 05/12/2001 and subsequent updates). This value shall therefore constitute the minimum threshold for the purposes of assessing the requirements relating to financial status.

Political refugees

Political refugees need only to submit an ISEE certificate relevant to their family nucleus, income and assets held in Italy. The application is to be accompanied by a copy of the political refugee status certificate.
